

How to Make your own Free KBN Microbooks. It's so Easy!

All you need is a piece of paper, a pair of scissors and maybe a stapler.

1. After you download the microbook page from read4free.net, simply cut around the dotted line to release the microbook from the paper.

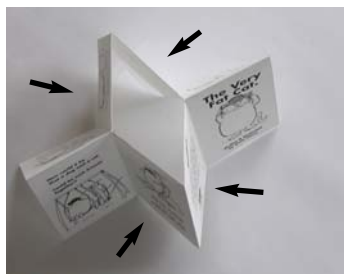

2. Fold down the middle, then cut along the central dotted line to the arrows.

3. Now fold the book along all of the dotted lines, as shown. The book will start to open.

4. Fold tighter, to press the pages together.

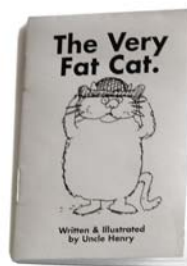

5. Press the pages completely tight.

6. Close the pages and watch your book suddenly appear. TIP: For microbooks a lighter weight paper folds best, works best.

7. You can add a staple if you prefer, but for microbooks on lighter weight paper no staple is needed.

8. There you have it! You've just made your very own microbook. Read them, collect them, and share them with friends!

Select the size and paper that's best for your computer printer, then make the book you want in the size you want. Print it in black & white or full color!

FREE BOOKS FOR EVERY CHILD IN THE WORLD THROUGH THE KIDS' BOOK NETWORK.
